

◆ For macOS:

1. Go to Flutter for macOS.
2. Download and extract the SDK.
3. Move it to a location like: `~/development/flutter`
4. Add Flutter to your PATH:

```
export PATH="$PATH:`pwd`/flutter/bin"
```

5.

Or add it to your shell config file (e.g. `~/.zshrc`, `~/.bash_profile`)

6. Install Xcode from the App Store if targeting iOS.
